

INTERMEDIATE

Straight Wire Orthodontics

for GENERAL and PEDIATRIC DENTISTS

TULSA

2021

This Intermediate course is intended to further your orthodontic education. Specifically, it is structured to follow the Basic Straight Wire course taught by Dr. Williams but is appropriate for any GP or Pediatric practitioner who possesses a working knowledge of Straight Wire orthodontics. Doctors who would like an update in the latest orthodontic concepts in Straight Wire or who want to learn how to treat more difficult cases will find this course invaluable.

This course consists of hands-on exercises and clinical lectures on Friday and Saturday with a half day Sunday devoted to reviewing cases that you may be having difficulties with and/or orthodontic cases you are considering for treatment.

A total of up to 80 continuing education hours of credit may be earned (20 per session).

- You receive a comprehensive course manual you will refer to for years.
- Orthodontic and practice management forms
- Lifetime mentoring with AOS membership
- Tier Advancement advice and guidance
- Attendees are encouraged to monitor the following year at NO CHARGE earning up to an additional 80 CE with your current AOS membership.
- Prior attendees of Dr. Williams' may attend FREE with the referral of a NEW doctor to the course.

COURSE DATES:

April 9-11, 2021

June 4-6, 2021

August 13-15, 2021

October 15-17, 2021
